DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. **Claims 1-6**, are rejected under 35 U.S.C. 102(e) as being anticipated by Kim (US Patent Number 6,466,292).

Regarding **claims 1, 2**, Kim teaches a portable radio communication apparatus (see figures 5 & 6) which has a sound input device for inputting sound, a sound output device for outputting sound, an input device for inputting various signals, and a communication device for communicating various communication data such as audio data, text data, and image data, the portable radio communication apparatus including:

- a first case 230,
- a second case 210 which is rotatably connected to the first case 230 and which can be in open and closed positions with respect to the first case 230,
- a first display 200a, which is exposed when the second case 210 is in the open position,
- a second display 200b, which is exposed whether, the second case is in the open or closed position (col 5 lines 44-54),

Art Unit: 2686

a first illuminator 24a, which illuminates the first display 200a/24a (see figure 2),

a second illuminator 24b, which illuminates the second display 200b (see figure 2),

an electric power supply switch, which can switch between lines to supply electric power for illumination to the first illuminator and the second illuminator,

an open/closed position detector which detects whether the second case 210 is in the open or closed position (col 6 lines 14-36, lines 45-50), and

a controller 140 which controls the electric power supply switch (col 6 lines 45-66), with reference R to what the open/closed position detector 220 has detected (col 5 lines 45-55), to supply electric power to the first illuminator when the second case 210 is in the open position (col 5 lines 54-67, col 6 lines 1-7, lines 25-28), and to supply electric power to the second illuminator 190 when the second case 210 is in the closed position (col 6 lines 32-36), and wherein the first display 200a/26a and the second display 200b/26b are constituted by a unitary display device, which can display on both a front side and a backside (col 5 lines 29-36).

Regarding **claims 3, 6**, Kim teaches a portable communication apparatus wherein the display device is provided in either the first case 230 or the second case 210, and the first case 230 or the second case 210, in which the display device is provided has a window for the first display 200a in the inner face of 210 and has a provided window for the second display 200b in the outer face (see figures 5&6, col 5 lines 50-54, col 6 lines 45-66).

Art Unit: 2686

Regarding **claim 4**, Kim teaches portable radio communication apparatus portable radio communication apparatus 100 wherein the display device has a first reflective plate on the opposite side to the window for the first display 200a and has a second reflective plate on the opposite side to the window for the second display 200b (col 5 lines 6-25).

Response to Arguments

3. Applicant's arguments filed 12/24/03 have been fully considered but they are not persuasive.

In response to the applicant's argument that "Kim reference was filed in U.S. on June 19, 2000, and present application claims priority was filed Jan 27, 2000. applicants' foreign priority filing date antedates the Kim reference, and therefore Applicants request that the rejection based on the Kim reference will be withdrawn".

Examiner states that the Kim reference claims foreign priority was filed Jun 17, 1999. Therefore, applicant's argument is not valid, and the Examiner maintained the previous rejection.

Conclusion

4. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2686

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
